JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 18 May 1964

25X1  
25X1

1. [REDACTED] OSI, accompanied by [REDACTED] met with James Kendall, Staff Director, and Colonel Glenn Smith, a member of the staff of the Senate Preparedness Investigating Subcommittee and briefed them on the status of the Soviet atomic energy program and related areas in connection with the Subcommittee's follow up of testimony developed in the nuclear test ban hearings. The briefing went quite well, however, Colonel Smith, referring to the fact that the Joint Committee on Atomic Energy is given the NIE's on Soviet atomic energy, asked that he be put on the distribution list to receive the II-2 series, a copy of the alert sheet on Soviet tests as well as notification at the time each test occurs. We discussed the fact that this Subcommittee did not have a vault area similar to that of the JCAE but indicated we would look into the matter.

25X1

2. [REDACTED] Talked with Peggy MacDonald in Senator Henry M. Jackson's office advising that [REDACTED] is in process as a JOT, GS-9 and is scheduled for tests next week. I cautioned Miss MacDonald that this does not guarantee that [REDACTED] will be employed but it is in process. She will advise the Senator.

3. [REDACTED] Mr. Foster in the office of Congressman Fulton inquired if we had some material which was issued publicly concerning the U-2. It is assumed he had reference to the hearings before Senate Armed Services on 6 March 1962 which was in open session and which included in it the unclassified statement of the Agency on the U-2 matter. These will be forwarded to him.

25X1

4. [REDACTED] Phyllis Pictrow in Senator Keating's office called indicating that both she and the Senator had several questions on the unclassified memorandum furnished last week pertaining to Czech aid to Cuba. We will check this and be in touch.
